

June 1, 2016

Dear Member,

Thank you to everyone who shared your thoughts on [SRNA's draft strategic plan and process 2016](#). The webinars went very well, I received a number of e-mails directly from members and the survey is now closed! We're busy incorporating your feedback into our final Strategic Plan 2016. Highlights of your feedback include:

- Ensure that the proposed work on RN Scope of Practice and Role Clarity is successfully advanced this year in collaboration with members, employers, government and the public.
- Collaborate with nursing students, educational institutions and others to improve the first time pass rate for NCLEX-RN writers.
- Improve our website and share key information more often through Social Media and online mechanisms.
- Provide more detail on how and where we'll work to advance healthy public policy in Saskatchewan.

Stay tuned for a link to the final Strategic Plan and upcoming invitations to collaborate on advancing RN and RN(NP) practice in the province.

RNs Educating Non-RN Staff

Thank you to those members and employers that have contacted the SRNA to share your perspective and questions regarding RNs educating Non-RN staff. I'm pleased to advise that we are working closely with a number of employer representatives to resolve these questions for staff on a specific unit or program. Our approach is to collaboratively understand the **environment, nurse and most importantly, client factors** to safely make decisions regarding the education of Non-RN Staff. For more information, please contact a practice advisor at practiceadvice@srna.org and/or visit the [role clarity page online](#).

Winner of the Voter Challenge

Congratulations to Myrn Hamm and colleagues at the Rosthern Hospital. They are the winner of the 2016 SRNA Council and Nominations Committee Election Voter Challenge.
